

**AMENDMENTS TO THE CLAIMS**

**Listing of Claims:**

1.-42. (Canceled).

43. (Currently Amended) A swivel comprising:

a first member;

a shaft fixed to the first member;

a second member mounted for rotation on the shaft, such that the second member is rotatable relative to the first member;

a bearing interposed between the second member and the shaft;

a plurality of media transfer members extending between the first and the second members; wherein the media transfer members are respectively provided at spaced apart locations around the circumference of the shaft; and

a base plate rotationally fixed to the shaft and the first member, such that the second member interposes between the base plate and the first member.

44. (Previously Presented) The swivel according to claim 43, wherein the plurality of media transfer members includes at least one of

- hoses to transfer fluid media, and
- cables to transfer electrical media.

45. (Previously Presented) The swivel according to claim 43, wherein the media transfer members have a spiral shape.

46. (Previously Presented) The swivel according to claim 43 comprising:

a cylindrical housing extending between the first and the second members and enclosing the plurality of media transfer members.

47. (Previously Presented) The swivel according to claim 43 comprising:

through holes provided in the first member; and

through holes provided in the second member;

wherein each of the media transfer members is connected to one through hole in the first member and one through hole in the second member.

48. (Previously Presented) The swivel according to claim 43, wherein the first rotatable member is a cover, and the second rotatable member is a connection ring.

49. (Previously Presented) The swivel according to claim 48, wherein the cover is fixed to the shaft via a quick-coupling.

50. (Canceled).
